Week 4: July 10th – 14th

Improv Theater (Ms. Seidl)

AM session: Superhero Academy

Welcome to Superhero Academy! Students will learn the basics of improvisational theater with a focus on character development. They'll build confidence and teamwork as they learn to trust in themselves and their fellow actors, and recognize the difference between appropriate and inappropriate humor. Each student will create their own superheroes personalities in Superhero Academy to use in improvisational theater games. Session includes the basics of stage combat, physical comedy, sketch comedy and pantomime.

PM session:

Student actors will build basic acting skills and apply improvisation skills to pre-written material. We will focus on audition preparation, voice and speech work, physical movement, script analysis and markup, stage directions, character development and being an excellent storyteller. Students will drive material selection for this workshop and choose to work on monologues, scene work and/or songs for musical theater.

AM ONLY

1st Child \$170.00 _____

2nd Child \$145.00 _____

3rd and + Children \$125.00 _____

AM and PM session

1st Child \$285 _____

2nd Child \$240 _____

3rd and + Children \$204 _____

Week 4: July 10th – 14th

Under the Sea Exploration (Mr. Pucci)

Each day students will learn about interesting artifacts, marine life, and marine habitats. We will explore what can be found under the sea through informative videos and fun activities.

1st Child \$285 _____

2nd Child \$240 _____

3rd and + Children \$204 _____

Week 5: July 17th – 21st

Build Your Own Website (Ms. Seidl) AM

session: Design your own website.

Students will design and create a storyboard for a website. They will learn basic html programming terms and how to write their basic code. Finally, they will use critical thinking skills to figure out which codes will write their storyboarded website and will engineer their website by writing their code into wordpad.

PM Session:

Students will participate in low-tech/no tech activities to learn coding and computer programming and the basics of how computers and technology function.

Ms. Seidl is a certified Exploring Computer Science instructor and will be using components of that program for this camp. <https://www.exploringcs.org/>
